

CVD to CCEP Competency-Based Alternative Training Pathway Pilot Program

The overarching goal of this pathway is to introduce a tailored, competency-based cardiovascular disease (CVD) curriculum to select trainees to allow early career focus in clinical cardiac electrophysiology (CCEP) during the third year of CVD training. This will result in completion of training in both specialties in 4 years (rather than 5 years as currently required). Participants in this pathway will be expected to meet milestones for both CVD and CCEP and thus be eligible for the American Board of Internal Medicine (ABIM) CVD and CCEP certification exams.

The objectives of this pathway are to:

- Develop a competency-based curriculum tailored to the trainee interested in board certification in both CVD and CCEP
- Permit early career focus in CCEP during the third year of CVD fellowship
- Provide an option to meet CVD and CCEP certification requirements in a four-year, rather than five-year, training period (waiver of CCEP certification requirements will be necessary)
- Develop a curriculum that encourages adaptive learning and teaching
- Increase diversity within CCEP training programs and workforce

The pilot will start in July 2023.

Participating Pilot Programs

| Name of Institution | Location |
|---|-------------------|
| Beth Israel Deaconess Medical Center | Boston, MA |
| Ascension St Vincent Hospital | Indianapolis, IN |
| Brigham and Women's Hospital | Boston, MA |
| Stony Brook University | Stony Brook, NY |
| Emory University School of Medicine | Atlanta, GA |
| University of Rochester Medical Center | Rochester, NY |
| Rush University Medical Center | Chicago, Illinois |
| Jackson Memorial Hospital University of Miami Miller School of Medicine | Miami, FL |
| Montefiore Medical Center | Bronx, NY |
| University of Massachusetts Medical Center | Worcester, MA |
| Washington University School of Medicine | St. Louis, MO |
| University of Michigan Medicine | Ann Arbor, MI |
| Cedars-Sinai Medical Center | Los Angeles, CA |
| University of California, Los Angeles | Los Angeles, CA |
| The Ohio State University Wexner Medical Center | Columbus, Ohio |
| University of Colorado Denver | Aurora, CO |
| Medical University of South Carolina | Charleston, SC |
| Henry Ford Health | Detroit, MI |
| The MetroHealth System | Cleveland, Ohio |

McGaw Medical Center of Northwestern University

Chicago, Illinois
