Complex Clinical Case Submission Instructions

Thank you for your interest in submitting a case to ACC. 25. Please read the following instructions carefully.

Section 1 walks you through the submission process on the portal.

Section 2 has important information for you after your submission is complete.

IMPORTANT: There are two different types of complex clinical case submissions:

- 1) The first submission type is meant for cardiovascular team members. The first author must be a non-physician CV team member, which could include nurses, advanced practice nurses, pharmacists, physician assistants, CV practice administrators, technologists, registered dietitian nutritionists or exercise specialists/physiologists. The presenter must be a CVT member. This submission type will have “CVT” listed at the beginning of each category.
- 2) The second submission type is meant for medical students, residents, fellows-in-training, medical doctors, and researchers.

If this is done, you will be contacted to correct this entry. Authors entered as an “Author Group” will not be listed in the author index of the onsite programs.
- The author order is the order that authors will be listed in meeting materials if the case is selected for presentation.

- ACC staff will follow up with lead investigators to ensure their disclosure is completed prior to the Annual Meeting.
